FISH OFFICIAL IS COMING TO COUNTY

Will Stake Off Localities to Be Used for Breeding Grounds.

Word came from Indianapolis that George E. Gars, superintendent of hatcheries for the department of conservation, will arrive in Lake county next week.

Selecting and staking off localities to be used this season by the state as breeding grounds of fish life.

Heretofore this work has been in the hands of game wardens and citizens of the respective localities where propagation was conducted.

A more comprehensive survey will be made and accentuated activity will result in the new plan, according to Richard Lieber, director of conservation in Indiana.

Under state laws the principal waters used for propagating aquatic life are staked off in early spring and designated as breeding places by signs reading, "This is state breeding ground." No fishing is permitted in these restricted zones from March 3 to July 1.

Hammond Prospects Are Gloomy

It is a clouded sun that shines upon the depleted track team of industrial high school. Many of last year's star athletes have gone; others are indolgent, and the more who are striving to win places in the field and track events fail to generate enough confidence to win other entrants.

The elimination contests begin next week and several promising candidates are expected to qualify. But Hammond will miss William Kovacs, the crack half-mile, who entered the University of Illinois, and Fred Seidenbecker, who carried away the best high jump in the school when he jumped to the same color.

Ted Palmer, who pole jump was expected to add materially to the success of the team, will be unable to compete this year through a ruling of the superintendent which makes him ineligible.

Four seniors will form the nucleus around which Coach George F. Veener hopes to build up a winning team.

Carl Lindberg, whose work on the basketball team won him considerable fame; Louis Hess, Leland Donnell, and Norman Haynes are the men. In Earl Howell, the school has a hurdler and 140-yard man, whose record will cause schools throughout the Calumet region quite a bit of justifiable worry.

About twenty-five men will enter the elimination contests next week. The coach has hopes, but the material this year is not up to the school's old standard. The interscholastic meets will begin the last week in April.

NEW FEATHER KING OF GREAT BRITAIN

One of the best bowling match games ever played on the alleys at McCool's this year.

Both men are going to have a crowd to root for them but as to who the winner is going to be it is very hard to tell, for both men are very good bowlers and are in first class shape for the match game. The house is expected to be very crowded, both with men and women bowlers and enthusiasts of this game.

The match game will be for a bet of \$100 and other side bets. There are no odds, so it is sure to be a good game. According to rumors Woods is being picked to be the winner. Lipinski has purchased a new ball and is practicing every day, so when you bet think twice when picking out the winner.

MANY TURN OUT FOR VALPARAISO GRIDIRON DRILL

VALPARAISO, Ind., April 9.—Spring football started for nearly fifty Valparaiso university candidates yesterday, and Coach G. E. Keogan will continue the drill for five weeks. The candidates comprise one of the heaviest aggregations of gridiron talent ever gathered in the Middle West, and the men are working with next autumn's difficult schedule in mind. The time will be spent principally on fundamentals, the blocking and tackling pits being installed for hard usage.

Twenty-two varsity emblem winners of last year are expected to be available, and all of these men will answer the call for spring drill. Most of them showed up under Capt. Dandlet yesterday. In addition, there are twenty good men from last fall's freshmen eleven.

Valparaiso is scheduled to play Harvard at Cambridge, Oct. 9, the second game of the season for the locals, and this spring's preliminary work is calculated to point the team for that inter-sectional struggle.
